01

Brand Identity

Channel Name & Tagline

Channel Name: Wobbly World

Tagline: Stories, Songs & Surprises for Little Ones

Brand Positioning

"Fun First, Learning Naturally" — Entertainment leads, education follows. Children feel like they're watching a cartoon, not a lesson.

Brand Personality

Tone	Cute, friendly, funny, wholesome, positive
Avoid	Scary content, loud aggression, heavy conflict, negative themes
Visual Style	Soft pastel colors, round shapes, chibi character design
Target Age	Primary: 0–5 years Secondary: Parents & caregivers
Primary Market	English-speaking: USA, UK, Australia

Content Mix

Type	Ratio	Main Goal	Key Characters
Story Adventures	40%	Engagement & character love	Mochi, Bloop, Pudding
Learning Through Play	25%	Educational value	Sunny, Ziggy
Songs & Music	20%	Retention & recall	All characters
Bedtime Stories	15%	Evening viewing habit	Pudding (lead)

Revenue Reality Check

IMPORTANT: Children's YouTube channels must be marked "Made for Kids," which disables personalised ads and reduces CPM to \$0.50–2.00 USD (vs \$3–8 for general channels). Build brand IP from Day 1 — licensing and merchandise are the real long-term revenue.

02

Character Bible

World Setting

Wobbly World is a village floating on clouds. Houses are round, trees are soft, and the ground bounces gently underfoot. Residents are clumsy but kind — small problems arise every day, and every day they get solved.

MOCHI

Species	Round Bear (cream + pink ears)
Personality	Curious, impulsive, acts before thinking
Catchphrase	"Let's try!"
Story Arc	Learns to think before acting
Visual Trait	Star mark on belly, extra-large eyes
Voice Direction	Energetic, slightly breathless
Channel Role	Main protagonist — starts every adventure
Merch Potential	☆☆☆☆☆

BLOOP

Species	Water-drop Frog (blue-green)
Personality	Timid but fiercely loyal, terrible timing on jokes
Catchphrase	"I'm not sure... but I'll come!"
Story Arc	Learns that bravery means acting despite fear
Visual Trait	Always half-squinting eyes, translucent white belly
Voice Direction	Slow, slightly nasal
Channel Role	Emotional anchor — validates children's fears
Merch Potential	☆☆☆☆

SUNNY

Species	Chick (yellow + orange beak)
---------	------------------------------

Personality	Hyper-positive, opinionated, can't stop talking
Catchphrase	"I know! I know!"
Story Arc	Learns to listen before speaking
Visual Trait	Wild tuft of hair, wings too small to fly
Voice Direction	Fast, high-pitched, never stops
Channel Role	Education bridge — naturally introduces learning topics
Merch Potential	☆☆☆☆

PUDDING	
Species	Baby Elephant (lavender)
Personality	Quiet, sleepy, occasionally says something profound
Catchphrase	"...Maybe... slowly?"
Story Arc	Learns to express feelings
Visual Trait	Curling trunk, ears so big they fan the air
Voice Direction	Slow, low, dreamy
Channel Role	Bedtime specialist — calms and soothes
Merch Potential	☆☆☆☆☆

ZIGGY	
Species	Rainbow Worm (multi-color segments)
Personality	Creative chaos, makes tools from anything, good outcomes somehow
Catchphrase	"What if we do THIS?!"
Story Arc	Learns collaboration
Visual Trait	Each body segment a different color, wiggles constantly
Voice Direction	Bouncy, wildly variable pitch
Channel Role	Problem-solver — leads craft and discovery segments
Merch Potential	☆☆☆

Character Relationship Map

Mochi is the social glue. Bloop & Sunny are comic contrasts (timid vs. impulsive). Pudding & Ziggy are unlikely best friends (stillness vs. chaos). All five come together for song segments and special episodes.

AI Image Generation — Base Prompt Formula

cute [species] character, soft pastel colors, [color description], big sparkly eyes, chibi style, simple clean design, children animation style, flat illustration, white background

First 30 Video Ideas

Weekly Schedule Template

Monday	Story Adventure (Mochi)
Tuesday	Learning Unit (Sunny)
Wednesday	Story Adventure (Bloop)
Thursday	Song Episode (All characters)
Friday	Learning Unit (Ziggy)
Saturday	Story Adventure (Pudding)
Sunday	Bedtime Story (Pudding)

Start Here — Easiest First Episodes

Weeks 1–2: Begin with EP02, EP04, EP07. These have the simplest educational concepts and are ideal for learning the production workflow before tackling more complex story episodes.

Week 1 — Meet the Characters

Episode	Title	Type	Star	Concept
EP01	Mochi Finds a Star	Story	Mochi	Shapes (star)
EP02	What Color is Sunny?	Learning	Sunny	Colors: yellow, orange, red
EP03	Bloop is Scared of the Dark	Story	Bloop	Emotions: fear → bravery
EP04	The ABC Song with Wobbly Friends	Song	All	Alphabet A–Z
EP05	Ziggy Builds Something Wobbly	Learning	Ziggy	Shapes: circle, square, triangle
EP06	Pudding's Big Sleepy Adventure	Story	Pudding	Animals (dream world)
EP07	Goodnight Wobbly World	Bedtime	Pudding	Bedtime routine

Week 2 — Colors & Numbers

Episode	Title	Type	Star	Concept
EP08	Mochi Paints the Rainbow	Story	Mochi	Rainbow 7 colors
EP09	Let's Count with Sunny! 1–10	Learning	Sunny	Numbers 1–10
EP10	Bloop Finds 5 Blue Things	Story	Bloop	Color blue + number 5
EP11	The Number Song 1–10	Song	All	Numbers 1–10
EP12	Ziggy's Color Mixing Lab	Learning	Ziggy	Color mixing: red+blue=purple
EP13	Pudding Dreams of Red Apples	Story	Pudding	Color red + food
EP14	Counting Stars Goodnight	Bedtime	Pudding	Numbers 1–5

Week 3 — Animal World

Episode	Title	Type	Star	Concept
EP15	Mochi Meets a Big Lion	Story	Mochi	Animals + big/small
EP16	What Sound Does the Duck Make?	Learning	Sunny	Animal sounds
EP17	Bloop and the Frog Family	Story	Bloop	Family concept + frogs
EP18	Old MacDonald's Wobbly Farm	Song	All	Farm animals
EP19	Ziggy and the Butterfly Wings	Learning	Ziggy	Insects + colors
EP20	Pudding Visits the Zoo	Story	Pudding	Zoo animals
EP21	The Sleepy Animals Lullaby	Bedtime	Pudding	Animals + sleep emotions

Week 4 — Daily Life

Episode	Title	Type	Star	Concept
EP22	Mochi Gets Dressed	Story	Mochi	Clothing + colors
EP23	Sunny Loves Vegetables!	Learning	Sunny	Vegetable names
EP24	Bloop Learns to Share	Story	Bloop	Sharing + social skills
EP25	Brush Your Teeth Song	Song	All	Daily routine
EP26	Ziggy Cooks Breakfast	Learning	Ziggy	Food + quantities
EP27	Pudding's Rainy Day at Home	Story	Pudding	Weather + indoor activities

EP28	Time to Sleep, Wobbly Friends	Bedtime	Pudding	Full bedtime routine
------	-------------------------------	---------	---------	----------------------

Week 5 — Milestone Episodes

Epis de	Title	Type	Star	Concept
EP29	Mochi's Birthday Surprise	Story	All	Numbers (age) + colors
EP30	Best of Wobbly World — EP1–30 Celebration	Special	All	Review all concepts

Concept Coverage After 30 Episodes

Colors	8 episodes covered
Numbers	5 episodes covered
Alphabet	2 episodes — expand in EP31–50
Animals	6 episodes covered
Shapes	3 episodes covered
Emotions	3 episodes covered
Daily Life	4 episodes covered

05

Daily Production SOP

Target: 3–4 Hours per Video

One person. Low budget. Repeatable every day. Master the flow in Weeks 1–2, then scale to daily publishing from Week 4 onward.

Tool Stack

Purpose	Tool	Cost	Notes
Script generation	Claude / ChatGPT	Free / low monthly fee	Use provided prompt templates
Image generation	Leonardo AI / Ideogram	Free credits	Save character presets
Voice generation	ElevenLabs / TTSMaker	Free tier to start	Create one voice per character
Video editing	CapCut	Free	Use Ken Burns + bounce effects
Thumbnails	Canva	Free	Build one template per content type
Scheduling	YouTube Studio	Free	Schedule same time every day

7-Step Daily Workflow

Step	Task	Time
Step 1	Select topic from weekly plan	10 min
Step 2	Generate script using Claude template	30 min
Step 3	Generate character & scene images (AI)	45 min
Step 4	Generate voiceovers in ElevenLabs	20 min
Step 5	Assemble video in CapCut	60 min
Step 6	Design thumbnail in Canva	15 min
Step 7	Upload, fill metadata, schedule	15 min

CapCut Assembly Order

- 1. New project — 16:9, 1080p
- 2. Add background images in script order
- 3. Apply Ken Burns effect (gentle zoom) to each image
- 4. Add character images with bounce animation entrance
- 5. Import voiceover MP3 files per segment
- 6. Add background music from CapCut free library
- 7. Enable auto-subtitles
- 8. Insert educational cards (text animation) in learning segment
- 9. Export MP4, 1080p

Ramp-Up Schedule

Weeks 1–2	3 videos per week — learn the workflow
Week 3	5 videos per week — increase speed
Week 4+	7 videos per week — full daily publishing

Weekly Planning Ritual

Every Sunday: spend 30 minutes selecting next week's 7 topics from the video ideas list. Confirm the content type balance (40/25/20/15 ratio). This single habit eliminates daily decision fatigue.

06

Script Templates

How to Use

Fill in the Episode Variables below, then paste the full Master Prompt into Claude. You will receive a complete, ready-to-use script. Review for content safety, make minor adjustments, then proceed to image generation.

Episode Variables (Fill These Each Time)

Episode number	EP____
Title	_____
Type	Story Adventure / Learning / Song / Bedtime
Lead character	Mochi / Bloop / Sunny / Pudding / Ziggy / All
Supporting characters	_____
Educational concept	_____
Main setting	_____
Core problem or goal	_____
What they learn	_____

Standard Video Structure

Opening	0:00–0:45 — Character intro, problem introduced
Adventure	0:45–5:30 — 3 mini-challenges, character interactions
Learning	5:30–9:00 — Educational concept woven into story
Song	9:00–10:30 — Catchy repetition of key concepts
Ending	10:30–11:30 — Resolution + what we learned today

Script Quality Checklist

- Total estimated length: 10–12 minutes

- Audience interaction moment every 2 minutes ("Can you say..." / "Point to the...")
- Educational concept repeated at least 3 times
- No scary or negative content lasting more than 30 seconds
- Character personalities consistent with Character Bible
- Song lyrics are simple and repetitive (under 10 words per line)
- Ending clearly states what was learned today
- Each character line is under 10 words

Template Variants by Episode Type

Type	Adventure Section	Learning Section	Song Length
Story Adventure	Full 3-part adventure (default)	Concept emerges from story naturally	1–2 minutes
Learning Episode	Replace with: Introduce → Practice → Challenge → Review	IS the adventure section	1–2 minutes
Bedtime Story	Gentle dream sequence, no conflict	Embedded softly in narrative	2+ minutes (lullaby)
Song Episode	Shorten adventure to 2 parts	Brief concept review only	3–4 minutes

07

YouTube SEO Strategy

Core Principle

The person searching is the parent. The person watching is the child. Optimise titles and descriptions for parents searching. Optimise thumbnails and content for children clicking and watching.

Title Formula

[Educational Concept] for [Age] | [Situation] + Wobbly World

Episode	Title Example	Primary Keyword
EP02	Learn Colors for Toddlers Yellow, Orange & Red Wobbly World	learn colors for toddlers
EP07	Bedtime Story for Babies Goodnight Wobbly World	bedtime stories for babies
EP11	Count 1 to 10 Numbers Song for Toddlers Wobbly World	numbers song for toddlers
EP18	Old MacDonald's Farm Song Animals for Kids Wobbly World	farm animals for kids

Title Rules

- Keep total length under 70 characters (truncated otherwise)
- Put the educational concept in the first 40 characters
- Always end with "| Wobbly World" for brand recall
- Title Case only — no ALL CAPS, no emoji
- Never keyword-stuff; read naturally

High-Volume Keywords to Rotate

Primary (use in titles)	learn colors for toddlers, numbers for kids, abc song for children, bedtime stories for babies, nursery rhymes, kids songs, educational videos for toddlers
-------------------------	---

Secondary (use in descriptions)	[animal] for kids, [color] for toddlers, count to [number], feelings for kids, shapes for toddlers, vegetables for kids, bedtime routine
Long-tail (descriptions only)	cartoons for 2 year olds, videos for 1 year old baby, kids educational cartoon english, toddler learning videos 3 years old

Hashtag Strategy

Always include (every episode)	#WobblyWorld #KidsCartoon #ToddlerLearning #EducationalVideos #KidsSongs #ChildrenCartoon
Story Adventures	#StoriesForKids #KidsStories #CartoonForKids
Learning Episodes	#LearnColors #NumbersForKids #ABCKids
Song Episodes	#NurseryRhymes #KidsSongs #BabyMusic
Bedtime Episodes	#BedtimeStories #SleepMusic #BabyLullaby
Total hashtags per video	8–15 maximum

Playlist Architecture

- Wobbly World — All Episodes (master playlist)
- Learn Colors with Wobbly World
- Numbers & Counting for Kids
- ABC & Alphabet Songs
- Animal Adventures
- Bedtime Stories & Lullabies
- Mochi's Adventures (character series)
- Pudding's Bedtime (character series)
- Sunny Teaches (learning series)

Add each new video to 2–3 playlists immediately after upload. Playlists trigger YouTube's "Up Next" recommendation for the next video in the list, multiplying total watch time.

Publishing Schedule

Taiwan time (daily publish)	Every day at 08:00–09:00
Why this time	Aligns with US East Coast 7–8pm (children's prime time)
Also hits	US West Coast 4–5pm (after school)

KPIs for the First 30 Episodes

Click-through rate (CTR)	Target: 5–8% (children's channel average)
Average view duration	Target: 50%+ of total video length
Subscribe conversion	Target: 2%+ of viewers subscribe
Strategy if CTR < 4%	A/B test a new thumbnail within 48 hours of publish

08

Monetization Roadmap

The Reality

Children's YouTube CPM: \$0.50–2.00 USD (vs \$3–8 for general channels). Advertising is the foundation, not the ceiling. The Wobbly World IP — characters, stories, worlds — is the real long-term asset.

Three-Phase Revenue Strategy

Phase	Timeline	Focus
Phase 1	Months 0–6	Build content library — advertising as base income
Phase 2	Months 6–18	Brand deals + digital/physical merchandise
Phase 3	Month 18+	IP licensing + streaming platform deals

Phase 1 — Revenue Streams

1. YouTube AdSense

Monetisation threshold	1,000 subscribers + 4,000 watch hours
Estimated time to threshold	3–5 months with daily publishing
Expected revenue at 100K views/month	\$50–200 USD
Expected revenue at 500K views/month	\$250–1,000 USD

2. Patreon / Membership

Tier	Price	Benefits	Target
Wobbly Fan	\$3/month	Early access, behind-the-scenes	Engaged parents
Wobbly Friend	\$8/month	Above + printable colouring pages	Regular viewers
Wobbly Family	\$15/month	Above + monthly wallpaper + name in credits	Superfans

3. Digital Downloads (Etsy / Gumroad)

Product	Price	Margin	Production Method
Colouring pages (20-page pack)	\$3–5 USD	~100%	AI line art + Canva layout
Character sticker sheets (printable)	\$3–5 USD	~100%	AI image + Canva
Learning worksheets (numbers/colors)	\$4–8 USD	~100%	Canva templates
Flashcard sets (animals/alphabet)	\$5–8 USD	~100%	AI image + Canva
Phone & desktop wallpapers	\$2–3 USD	~100%	AI image + Canva

Phase 2 — Revenue Streams

4. Brand Sponsorships

Best-fit brands	Children's education apps, toy brands, picture book publishers, kids' food brands
Start approaching at	10,000+ subscribers
Sponsorship rate at 10K subs	\$200–500 USD per video
Sponsorship rate at 50K subs	\$1,000–3,000 USD per video
Sponsorship rate at 100K subs	\$3,000–8,000 USD per video

5. Print-on-Demand Merchandise (Printful / Printify + Etsy)

Product	Sell Price	Profit/Unit	Start When
Children's character T-shirt	\$20–25 USD	\$8–10 USD	5K subscribers
Character mug	\$15–18 USD	\$5–7 USD	5K subscribers
Tote bag	\$18–22 USD	\$6–8 USD	5K subscribers
Character cushion/pillow	\$25–30 USD	\$8–12 USD	10K subscribers
Sticker pack (physical)	\$4–6 USD	\$1.50–2.50 USD	2K subscribers

6. Digital Learning Bundle

"Learn with Wobbly World" — 12-week learning program. Includes: weekly PDF plan, matching video list, weekly worksheets, parent guide. One-time creation. Sell forever at \$29–49 USD via Gumroad.

Phase 3 — Revenue Streams

7. Character IP Licensing

When the channel reaches significant scale, license Mochi, Bloop, Sunny, Pudding, and Ziggy to:

- Toy manufacturers (plush toys, figurines)
- Children's book publishers
- Kids' clothing brands
- Stationery and school supply brands

Structure: upfront licensing fee + 5–15% royalty on net sales.

8. Streaming Platform Licensing

Target platforms	Netflix Kids, Amazon Kids+, Apple TV+ Kids
Minimum content library required	200+ episodes
Licensing fee range	\$5,000–50,000 USD per episode (platform-dependent)

Revenue Timeline Projection

Period	Milestone	Monthly Revenue (Est.)	Primary Source
Months 1–3	Build library (0 revenue)	\$0	Investment phase
Months 4–6	Hit monetisation threshold	\$50–300 USD	AdSense + Etsy
Months 6–12	Etsy + Patreon growing	\$300–1,500 USD	Digital products
Months 12–18	Brand deals + POD merch	\$1,000–5,000 USD	Sponsorships
Months 18–36	IP licensing discussions	\$5,000–20,000 USD	Licensing + merch
Month 36+	Streaming + app potential	No ceiling	IP ecosystem

Critical Action: Trademark Registration

Register trademarks from Day 1. File for: "Wobbly World," "Mochi," "Bloop," "Sunny," "Pudding," "Ziggy." In Taiwan: approx. NT\$3,000 per class. Priority classes: Class 28

(toys/games) and Class 41 (education & entertainment). Without a trademark, the IP has no legal protection and licensing deals are impossible.
